—  — Orchard to Wedding

The bridal bouquet is an essential part of a modern bride's outfit, whether it be a lavish opulent affair or a simple garden wedding at the family home. It is true that flowers add visual beauty and a touch of romance to a wedding, but there are deeper reasons for their presence. A bride carrying flowers has its roots in ancient times. In Ancient Rome, brides carried or wore flower garlands, believing that flowers signify new beginnings, fidelity and hope of fertility.
